

Science Review: Activity #1

Test: Monday, September 23rd, 2013

Learning Goals:

- We will learn what the scientific terms interdependence, carnivore, omnivore, consumer, producer, and decomposer are.
- We will learn what a food chain is.
- We will learn what a scavenger is.
- We will learn what a predator and prey is.
- We will give examples of ALL the science vocabulary learned.

Parents:

Your child was told to bring home their science duo tang to study their learning goals. Please ensure that your child knows ALL their learning goals learned in their science unit so far. An evaluation of their learning (a quiz) will be given on MONDAY. We will review our science terms every day until Monday.

Thank you for your cooperation!

Ms. Devito
